

Foundations in Leadership

A program for leaders in Catholic health and social service organizations

PURPOSE

To enable senior leaders, managers and directors in Catholic health and social service organizations to more effectively carry out their unique responsibilities as leaders of Catholic organizations.

GOALS

- Provide a learning and living experience that is not available in other professional or academic programs for leaders in Catholic organizations
- Create a space for reflection that enables a person to better know one's self and one's call as a leader within a Catholic organization
- Expand one's ability to articulate the unique role of Catholic health and social services in contemporary society
- Enrich one's vocabulary to better articulate the Church's mission in health and social service
- Understand the rich heritage of Catholic social teaching
- Ensure the on-going development of Catholic health and social services by mentoring leaders

PROCESS

The learning process for the *Foundations in Leadership for Catholic Organizations* focuses upon adult learning styles, inter-active presentations and periods of personal and group reflection. A selection of articles and books provide a base for discussion and reflection. The time together also provides a space for personal development. People are encouraged to leave work at work and live together for the three modules.

Foundations in Leadership

A program for leaders in Catholic health and social service organizations
